Fotoepilacja IPL

Fotoepilacja IPL jest to zabieg usuwania zbędnego owłosienia za pomocą intensywnego źródła śwatta. Podstawowa zasada działania polega na zamianie energii świetlnej w ciepło, które jest pochłaniane przez melaninę we włosach, a przez to następuje zniszczenie mieszka włosowego. Tak jak w przypadku innych metod epiłacji zabiegi muszą być powtarzane, by osiągnąć pożądane efekty. Po zabiegu włosy odrastają w mniejszej ilości i są znacznie słabsze. Każdy kolejny zabieg zmniejsza ilość zbędnego owłosienia.

W naszym Salonie do zabiegów fotoepilacji IPL używamy aparatu Next Wave firmy Cerri – wiodącego producenta urządzeń kosmetyki profesjonalnej. Dzięki zastosowaniu odpowiednich filtrów aparat emituje dwie fale o długości: 590 nm do usuwania owłosienia oraz 620 nm do fotoodmładzania. Przy zabiegu epilacji wykorzystywane jest zjawisko

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 2 blocking script resources and 3 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

Remove render-blocking JavaScript:

- http://fotodepilacja-nfb.pl/wp-includes/js/jquery/jquery.js?ver=1.11.3
- http://fotodepilacja-nfb.pl/wp-includes/js/jquery/jquery-migrate.min.js?ver=1.2.1

Optimize CSS Delivery of the following:

https://fonts.googleapis.com/css?family=Source+Sans+Pro%3A300%2C400%2C700%2C300

italic%2C400italic%2C700italic%7CBitter%3A400%2C700&subset=latin%2Clatin-ext

- http://fotodepilacja-nfb.pl/wpcontent/themes/twentythirteen/genericons/genericons.css?ver=3.03
- http://fotodepilacja-nfb.pl/wp-content/themes/twentythirteen/style.css?ver=2013-07-18

Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

Leverage browser caching for the following cacheable resources:

- http://fotodepilacja-nfb.pl/wp-content/themes/twentythirteen/images/search-icon-2x.png (expiration not specified)
- http://fotodepilacja-nfb.pl/wpcontent/uploads/2016/01/cropped-7c311bb3e0f5fc75395524209c962016.jpg (expiration not specified)

Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

Minify CSS for the following resources to reduce their size by 2.6KiB (24% reduction).

 Minifying http://fotodepilacja-nfb.pl/wpcontent/themes/twentythirteen/style.css?ver=2013-07-18 could save 2.6KiB (24% reduction) after compression.

Mobile

Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

Minify JavaScript for the following resources to reduce their size by 597B (42% reduction).

 Minifying http://fotodepilacja-nfb.pl/wpcontent/themes/twentythirteen/js/functions.js?ver=20150330 could save 597B (42% reduction) after compression.

Optimize images

Properly formatting and compressing images can save many bytes of data.

Optimize the following images to reduce their size by 21.7KiB (23% reduction).

· Compressing http://fotodepilacja-nfb.pl/wpcontent/uploads/2016/01/cropped-7c311bb3e0f5fc75395524209c962016.jpg could save 21.7KiB (23% reduction).

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about <u>prioritizing visible</u> content.

95 / 100 User Experience

Consider Fixing:

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider making these tap targets larger to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target Przeskocz do treści is close to 1 other tap targets final.
- The tap target <label>Szukaj:</label> is close to 1 other tap targets final.
- The tap target Styczeń 16, 2016 and 7 others are close to other tap targets final.

Avoid plugins

Your page does not appear to use plugins, which would prevent content from being usable on many

Mobile

platforms. Learn more about the importance of avoiding plugins.

Configure the viewport

Your page specifies a viewport matching the device's size, which allows it to render properly on all devices. Learn more about <u>configuring viewports</u>.

Size content to viewport

The contents of your page fit within the viewport. Learn more about sizing content to the viewport.

Use legible font sizes

The text on your page is legible. Learn more about using legible font sizes.
